Date : April 25, 2012

The Belgian Electrawinds in partnership with the city of Zrenjanin, is planning to build a solar park with installed capacity of 10 megawatts. The park will be spread on twenty acres. The value of this investment is 20 million euros.

On meeting, the investor has been offered few locations, one in the industrials zone in Zrenjanin's suburb and the other near Perlez.

Electrawinds is already present in Serbia on two locations. In Alibunar the company is building a 50MW wind park, worth 100 million euros, and in Indija, Electrawinds is constructing a biomass processing plant, worth over 21 million euros.
