

Bosnia TPP “Kakanj” CHP project, investment in heating network 73MEUR

Categories : [SEE Energy News](#)

Date : January 25, 2013

Economical and technical assumptions for heating supply from TPP “Kakanj” project realization were mentioned on presentation of the subject “Possibilities for heating energy supply from TPP Kakanj” in region of Zenica municipality.

This realization will enable long-term and safe supply with heating energy to Zenica and region from TPP “Kakanj”.

Estimated value of investments in heating pipe and in TPP “Kakanj” amounts 73million Euros.

Study showed that price of heating energy for PC “Grijanje Zenica” won’t be higher than current price from “ArcelorMittal”.
