

Director of the Mine and Thermal power plant "Stanari" Ivica Jakovljevic said that the facility of Thermal power plant, which was under construction, was very technologically challenging, compounded by all the elements and had a number of facilities. TPP Stanari new unit is contracted to China Dongfang company.

"We respect the standards both in the operation and in the environmental protection. Maybe we will finish construction before the deadline that is set for the end of 2015th, when should start trial operation", Jakovljevic told to the reporters in "Stanari". He noted that the Mine and Thermal power plant "Stanari" entered the relocation investment of the part of the regional road that it could be freely exploited in the open pit Raskovac.

"We fully invest the investment and make the modern road with all the elements - paths for pedestrians and driveways", Jakovljevic said.

Director of Chinese company "Dongfang Electric Corporation" Jian Li Si Young stressed that all works were under control when it came to safety and quality.

"When the Government of Republika Srpska and EFT chose us for the main contractor, the first foundations were laid in May 2013th", recalled Young.

A representative of the company "MD Peric Company" from Bijeljina Luka Poprzen said that the dynamics of work was outstanding, this was a new test for local construction companies and new experience, considering the fact that after more than 30 years in the region would be built such a facility.

The Mine and Thermal power plant "Stanari" today has visited the Minister of Physical Planning, Civil Engineering and Ecology of Republika Srpska Srebrenka Golic, where she met with representatives of the EFT group and the company "Dongfang Electric Corporation".
