

Bulgaria, TPP Bobov Dol recorded a net loss in the amount of 9.6 million euros in the first nine months of 2021

Bulgarian thermal power plant Bobov Dol recorded a net loss in the amount of 9.6 million euros in the first nine months of 2021, compared to a loss of 3.2 million euros in the same period last year.

The company's total revenues rose to 55.8 million euros in the first nine months of the year, compared to 38.4 million euros recorded in January-September 2020. Total expenditures also increased to 65.5 million euros in the same period, from 41.6 million euros a year before.

TPP Bobov Dol recorded a net profit in the amount of 1.3 million euros in 2020, compared to a profit of 1.24 million euros in the previous year.

TPP Bobov Dol is 630 MW coal-fired power plant commissioned in 2000, located in southwestern Bulgaria. It was privatized in 2008 and local consortium Energy MK is the plant's sole owner.
