Turkish companies are planning two 5MW biomass CHP plants, electricity to be sold to state owned power utility HEP Hrvatska Elektroprivreda.

Monalp Biomass signed the contract with Sisak municipality for the construction of two biomass power plants, 5MW each.

Investors will most likely deliver the produced heat energy to HEP heating company in order to be included in city distance heating system in Sisak industrial zone.

Monalp Biomass is a JV of two Turkish Istanbul based companies, ALP Elektrik and Mono Muhendislik.

Turkish investors presented their idea to invest and construct 6 new CHP plans on biomass in Croatia, transmits Serbia-energy.eu
