

Representatives of the French Fund Pearl Infrastructure Capital, whose founders and investors are the European Investment Bank (EIB) and Edmond de Rothschild Private Equity, should attend a meeting with the Croatian Minister of Economy and Sustainable Development Tomislav Coric.

Pearl Infrastructure Capital, whose current investment potential exceeds 1 billion euros and its investment portfolio exceeds 6 billion euros, has just completed the acquisition of local company Uni Viridas, which operates the Viridas biomass cogeneration plant in Babina Greda with 10 MW of installed capacity. Pearl Infrastructure Capital did not want to reveal the value of the transaction, but, according to Croatian media, it is between 40 and 45 million euros.
