Date : February 6, 2015

Croatian state-owned power utility HEP has awarded a deal for the supply of electricity smart meters to electrical equipment maker Cotra, it was confirmed from HEP PR office to Serbia Energy.

The value of the 24-month contract is 12.6 million euro, the notice in the Tenders Electronic Daily (TED) confirms.

Cotra manufactures and installs power meters, electric cables, transformers, circuit breakers and power distribution boards, among other electrical equipment.
