

The Danish Vestas has signed the contract for the supply of wind turbines for the WPP Ogorje, the capacity of which is 44 MW.

The contract has been signed with the company Aiolos Projekt, dominantly owned by the French company Akuo Energy and the turbines are of the type V112-3. MW, which will be installed for the first time in Croatia.

The Vestas wind turbines should be delivered in the third quarter of 2015, and the wind power plant should be finished by the end of the same year.

After the completion of works, the WPP Ogorje will generate 100.000 MWh per year, which satisfies the needs of 31.000 households.
