

The biggest buyer of electricity in Croatia, concern Agrokor, in the next two years will purchase electricity from HEP Supply company , it was announced today by the HEP. With an annual consumption of more than 320,000,000 kWh, Agrokor is the largest purchaser of electricity in Croatia.

As stated in the press release, by signing 2-year contract to supply HEP Supply has once again confirmed its leading position in the electricity supply in Croatia, with over 95 percent market share in the enterprise sector.

“Every day 35,000 companies shows us the confidence because we guarantee the best deal of tariff models according to their needs, with the best payment terms and conditions. We are a leading supplier of the highest-spending customers, who are also the most sensitive in terms of security of supply and price,” said director of HEP Supply Tina Jakasa at the time of signing the contract with Agrokor.
