

EPS, TENT and RB "Kolubara" on regional power generation investment conference RE:ENERGY

Categories : [Uncategorized](#)

Date : April 23, 2012

Leading experts from domestic and international energy companies working in region of South East Europe will gather at the upcoming conference RE:ENERGY which will be held on 27th of may in hotel Hyatt Regency, in Belgrade in organization of Conference republic.

Conference speakers and experts will speak about the potentials for investment into Serbian energy sector. Representatives of domestic companies are coming from Electric Power of Serbia, Thermal Power Plants Nikola Tesla, RB Kolubara, Oil Industry of Serbia and Elektrovojvodina while the international power gen sector will be represented with companies General Electric Energy, Alstom Grid, Ethanol Europe and Windvision.

TENT will have the opportunity to present achieved results of facilities modernization cycle projects as well as the environmental measures and projects. Investment projects until 2017 will also be presented to wide circle of interested energy and financial experts.

The conference will try address the biggest challenges and issues which energy sector is facing in daily operation and with aim to assure reliable energy supply. Price policy of electricity is still the key factor for construction of of reliable energy system of the country, while in electricity trading bigger cross border cooperation is needed in order to assure security of supply.

All this topics will be address in four panels of the conference which will also be attended by ENTSO-E, Austrian grid, EFT, GENi, Regional energy stock market as well as the representatives of Ministry of environment, mining and spatial planning, Office for EU integration from Government of Serbia and international financial institutions like IFC and

EBRD. Large number of registered delegates are coming from regional business, state and international business community. Interest from domestic and international medias is quite high but understandable considering the speakers and participants profile.

Presence and active involvement of CE TENT, which is the biggest electricity producer in the region but also achieved results and planned investments presentation, will surely bring new quality to this regional event and raise the image of Serbian electric power industry.
