

Macedonia: Increased electricity production in HPPs

Categories : [SEE Energy News](#)

Date : July 18, 2016

Total electricity production in Macedonia in June 2016 amounted to 298 GWh, which is 5.56 % more than planned for this month (282.3 GWh), but 8.42 % less compared to the same period in 2015.

Electricity generation in hydropower plants was accounted for 50.97 % of the total sum and amounted to 151.9 GWh, which is 160.1 % more than planned for this month. Thermal power plants produced 46.98 % of the electricity (140 GWh), which is 34.73 % less than planned. The remaining 6.1 GWh or 2.05 % was produced by Bogdanci wind farm, transmits Serbia-energy.eu
