

Production of coal and electricity in Kostolac over projected plans

Categories : [Uncategorized](#)

Date : May 8, 2012

The production of coal and electricity in Thermal Power Plants Kostolac company is over projected plans for first five months of 2012, as Kostolac produced 3,1 mill tons of coal and produced 2,2 bill kwh of electricity.

Last year records for this company will not be achievable this year due to the capital investment and
