

Alro Slatina biggest Romanian aluminium company procured electricity supply for 2015 from Hidroelectrica electricity production company. This was the only transaction on auction held last week.

Alro bought 87,600 MWh from Hidroelectrica to 39.96 eur / MWh and 43,800 MWh of 38.85 eur / MWh, inform OPCOM website. Energy will be supplied entirely next year between January 1 and December 31.

Alro was the only buyer of auctions held last Friday on OPCOM. Electricity producers offered for sale 1.95 million MWh, but only this package was sold which include 131,400 MWh.

The offer includes two-year contracts in which 877,200 MWh were proposed sale of 174.5 RON / MWh. Hydropower produces about 30% of the energy it generates Romania.
