

Starting from the beginning of July energy regulator ANRE decreased the fees for grid transmissions and change the tariffs for system usage.

The tariff for electricity transmission drops by 6.8% from 5 eur / MWh to 4.6 eur / MWh, according to a ANRE Order published in the Official Gazette.

Also, tariffs for functional system will decrease by 17.6%, from 0.31 eur / MWh to 0.26 eur / MWh, and the fee for technological system will increase by 0.3%, from 2.79 eur / MWh to 2.8 eur / MWh. , transmits Serbia-energy.eu
