

Hidroelectrica recorded for first 6 months of 2015 a record profit of 163MEUR, 42% higher than the profit recorded in the same period last year, when the company reported a profit of 115MEUR/

The turnover for the first six months of 2015 was higher by almost 67MEUR compared to the first six months of 2014, from 417MEUR compared with 350MEUR in 2014 states the company press release.

The increase in turnover was due to a higher production recorded by the company in the first half of 2015, when it produced 9.6 TWh, 1.1 TWh more than the same period last year. , transmits Serbia-energy.eu
