

Romanian hydro-based electricity producer Hidroelectrica offered on the OPCOM's bilateral contract platform, four baseload packages of 5 MW each for the delivery in 2024.

Asking price for all four packages was 100.8 euros/MWh.

The interest was very high and the offer received 13 bids from domestic and foreign suppliers, as well as from the largest industrial consumer in the country - aluminium producer Alro.

At the end, two of the packages were bought by EDS at the prices of 121.6 and 119.3 euros/MWh, while the other two were sold to Electric Planners at the price of 129 euros/MWh.
