

A total of 186,902 MWh of electricity was traded on the day-ahead market on the Serbian energy exchange SEEPEX in September, which is a 1.22 % increase compared to the previous month, with an average of 6,230.1 MWh/day.

Average daily base price on day-ahead market in September amounted to 63.67 euros/MWh, which is a 4.4 % increase compared to August, while average euro-peak price reached 70.77 euros/MWh (+ 8 %).

SEEPEX was officially launched on 17 February 2016, with traded volume 1,925 MW. It is jointly owned by Serbian electricity transmission system operator EMS and European Power Exchange (EPEX SPOT) with the idea to support the development of a competitive, transparent and reliable electricity market in Serbia and Southeastern Europe and make a significant impact on the increase of trading volumes of electricity in the region.
