

Serbia, 243,040 MWh of electricity was traded on the day-ahead market on the Serbian energy exchange SEEPEX in September 2021

A total of 243,040 MWh of electricity was traded on the day-ahead market on the Serbian energy exchange SEEPEX in September 2021, which is an 2.8 % decrease compared to the previous month, with an average of 8,101 MWh/day. Traded volume in September 2021 was 1.8 % higher than in the same month last year.

Average daily base price on day-ahead market in September amounted to 135.08 euros/MWh, which is a 23.19 % increase compared to August, while average euro-peak price reached 144.81 euros/ MWh (+ 20.76 %).

SEEPEX was officially launched on 17 February 2016, with traded volume of 1,925 MWh. It is jointly owned by Serbian electricity transmission system operator EMS and European Power Exchange (EPEX SPOT) with the idea to support the development of a competitive, transparent and reliable electricity market in Serbia and southeastern Europe and make a significant impact on the increase of trading volumes of electricity in the region.
