

Representatives of the local government of town of Vrsac and the company MK Fintel Wind visited the newly built La Piccolina wind farm near this town in Vojvodina.

The construction of this 6.6 MW wind farm started in April. The investment was worth about 10 million euros and it is expected that the wind farm will be put into operation within the next month.

The investor in the project is MK Fintel Wind, the company which is also developing the project for the construction of 117 MW Kosava wind farm near Vrsac.

Last November, the company has commissioned 9.9 MW wind farm near Kula, which is the first such facility in Serbia. It has three 178 meters high wind turbines, expected annual electricity generation of 27 GWh, while the value of the investment was around 15 million euros. After the completion of Kosava wind farm, MK Fintel Wind will operate a total of 133 MW in wind power, transmits Serbia-energy.eu
