

The company MK-Fintel Wind announced that the opening ceremony for La Piccolina wind farm near Vrsac will be held on 3 October.

La Piccolina is the first wind farm in the southern part of Banat and at the same time the company's second wind farm in Serbia. The construction of this 6.6 MW wind farm started in April and the investment is worth about 10 million euros.

The investor in the project is MK-Fintel Wind, the company which is also developing the project for the construction of 117 MW Kosava wind farm near Vrsac. The company is owned by Italian Fintel Energia Group (54 %) and local MK Group (46 %). Last November, it has commissioned 9.9 MW wind farm near Kula, which is the first such facility in Serbia. It has three 178 meters high wind turbines, expected annual electricity generation of 27 GWh, while the value of the investment was around 15 million euros. After the completion of Kosava wind farm, MK-Fintel Wind will operate a total of 133 MW in wind power.
