

Serbian electricity exchange SEEPEX announced that in May it has reached the higher trading volume until now. Total traded volume during this month amounted to 107,222.7 MWh of electricity.

In related news, Slovenian fuel retailer Petrol, also involved in natural gas and electricity trading, has become the latest member of SEEPEX in late May.

SEEPEX was officially launched on 17 February 2016, with traded volume 1,925 MW. It is jointly owned by Serbian electricity transmission system operator EMS and European Power Exchange (EPEX SPOT) with the idea to support the development of a competitive, transparent and reliable electricity market in Serbia and Southeastern Europe and make a significant impact on the increase of trading volumes of electricity in the region.
