

In August 2020 on the day-ahead market on the Serbian energy exchange SEEPEX, a total of 260,234.7 MWh of electricity was traded which is a 31.6 % increase compared to the previous month, with an average of 8,394.7 MWh/day.

Traded volume in August 2020 was 37.7 % higher than in the same month last year. Average daily base price on day-ahead market in August amounted to 37.24 euros/MWh, which is a 1.7 % increase compared to July, while average euro-peak price reached 39.78 euros/MWh (+ 2.1 %). SEEPEX was officially launched on 17 February 2016, with traded volume 1,925 MWh. It is jointly owned by Serbian electricity transmission system operator EMS and European Power Exchange (EPEX SPOT) with the idea to support the development of a competitive, transparent and reliable electricity market in Serbia and south-eastern Europe and make a significant impact on the increase of trading volumes of electricity in the region.
