

After several delays JV power exchange SEEPEX is finally set to run live end of November.

TSO Co EMS & EPEX SPOT registered the exchange in business registry.

Electricity market for Serbia and SEE, SEEPEX, has been officially registered at the Agency for Business registries and it should start functioning in late November 2015, TSO company "Elektromreza Srbije" (EMS), a co-owner of the market communicated.

As communicated, set up of the market i.e. organized electricity market will make Serbia special energy know of the entire SEE region.

SEEPEX is owned by PC EMS and the European electricity market (EPEX SPOT) and the first meeting of the Supervisory Board of SEEPEX will be held tomorrow.

EMS said SEEPEX will support development of transparent and reliable market of electricity for Serbia and SEE and significantly influence increase in electricity trading scope in the region.
