

Slovenia: Electricity production at NPP Krsko in March

Categories : [SEE Energy News](#)

Date : April 15, 2020

Last March, NPP Krsko generated 516,859 MWh of net electricity, in March 2020, nuclear power plant Krsko, jointly owned by Slovenia and Croatia, produced 517,587 MWh of net electricity, which is 1.49 % more than planned (510,000 MWh) for this month. The plant is working under the constraints of technical specifications and all security systems were operable. Both the availability and the capacity factors stood at 100 % and there were no reported technical problems.
