

Nuclear power plant Krsko, jointly owned by Slovenia and Croatia in October 2020 produced 517,285 MWh of net electricity, which is 4.5 % more than planned (495,000 MWh) for this month. Last October, NPP Krsko was undergoing regular annual maintenance. The plant is working under the constraints of technical specifications and all security systems were operable. Both the availability and the capacity factors stood at 100 % and there were no reported technical problems.
