

Nuclear power plant Krsko, jointly owned by Slovenia and Croatia, produced 494,236 MWh of net electricity in September 2020, which is 0.9 % more than planned (490,000 MWh) for this month.

Last September, NPP Krsko generated 488,098 MWh of net electricity. The plant is working under the constraints of technical specifications and all security systems were operable. Both the availability and the capacity factors stood at 100 % and there were no reported technical problems.
