

Nuclear power plant Krsko, jointly owned by Slovenia and Croatia, produced in June 491,443 MWh of net electricity, which is 1.3 % more than planned (485,000 MWh) for this month. Last June, NPP Krsko generated 496,253 MWh of net electricity. The plant is working under the constraints of technical specifications and all security systems were operable. Both the availability and the capacity factors stood at 100 % and there were no reported technical problems.
