

TENT B: Facility for wastewater treatment is 15 million of euros worth

✘  
TENT B power plant, from Obrenovac, will not be danger for rivers any more. Ecological problems will soon be solved, because TENT has announced the construction of facility for wastewater treatment.  
Grants for realization of this project are provided thanks to IPA agreement between Serbia and EU, and as it was announced earlier, the investment is about 15 million of euros worth.
